RAYMOND WEIL

Raymond Weil Maestro Watch

This gentleman's maestro watch is set on a leather strap and enables the wearer to discover every cog in a haute-horology watch. The automatic movement which brings this watch to life can be observed through an opening in the silver dial at 12 o'clock.

The black indexes and motif in the centre add to the elegance of the ensemble. Expertise and tradition come together to produce this maestro model – a work of formal elegance.
