**II. SPECIFIC INFORMATION**

**Number of Sessions:** As each school has different period times, requirements and class sizes we are flexible in what we provide to meet your needs. We recommend that each session is at least 1 hour long and has approx. 40 students. This gives all students a chance to play a game of wheelchair basketball and gives our presenters approx. 20 minutes to do the road safety talk. We can, however, hold the road safety talk at a morning assembly then concentrate on the game of wheelchair basketball each session.

**Regional bookings require 4 or more sessions per day, unless you can share the booking with another local school.**
